

Student Calendar

By: Tejas Hariharan, Medhaj Shrestha, Sam Hoswell,
Alex Pedersen, Andy Simon, and Nathan Ovadia

Overwhelmed students

- Three steps to good grades
 - Organization
 - Communication
 - Priorities
- Studies show that these tool all lead to a higher GPA

CALENDAR

TO-DO

- 1.
- 2.
- 3.

profile page

Home Friends Messages Settings

Tools used part 1

- Visual Studio Code/ Github
 - Our repository/ where we pushed all of our code
 - 5 stars
 - Used it for everything
- Jira/Agile/Waterfall
 - Where we tried to assign people certain jobs
 - 2 stars
 - Was confusing and just added another thing to keep track of
- Discord
 - Used for all team communication
 - 5 stars
- Figma
 - Wireframing pages/Creating CSS stylesheets
 - 5 stars

Jira

Tools used part 2

- Bootstrap
 - Used in all html files
 - 5 stars
 - Great documentation online
- PostgreSQL
 - Used for the database
 - 3.5 stars
 - Was a little confusing
- Node.js
 - Needed for all the javascript
 - 4 stars

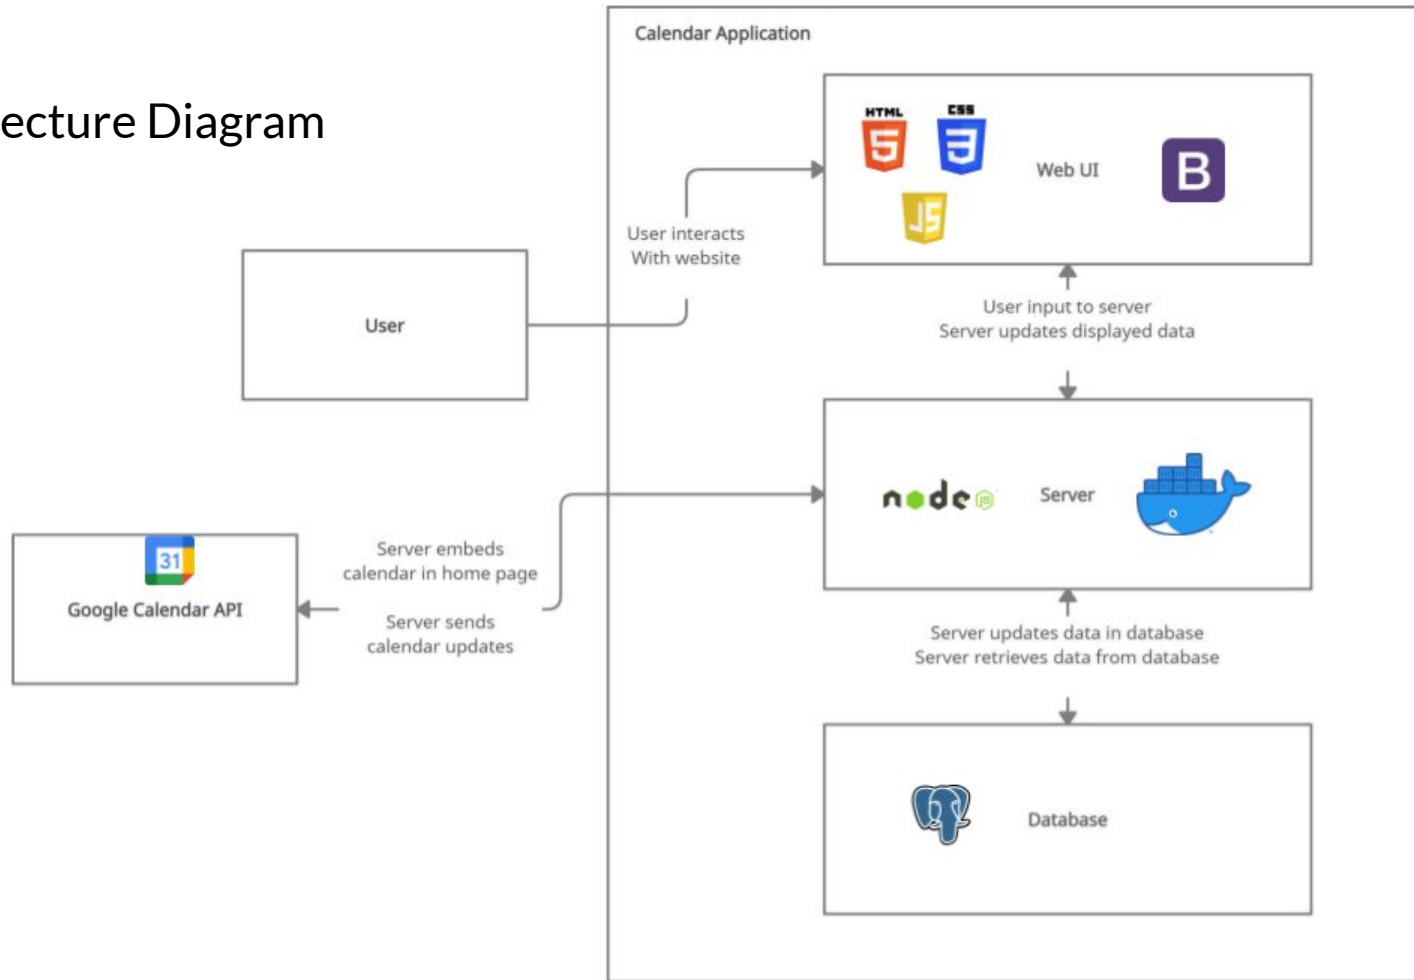

Tools used part 3

- Local Host
 - Used this to open our website to see how it runs
 - 4 stars
- Google Calendar API
 - Used this to embed a google calendar into our website
 - 4 stars
- Dbdiagram
 - Was used to visually create the database diagram
 - 4 stars
 - Was easy to share and export

 Google Calendar for Developers › Calendar API

Architecture Diagram

Challenges we encountered

- Embedding the google calendar
- Making a new calendar for each person who makes an account
- Learning how to use cookies
- Database flow
